Professional Summary

Final-year Computer Science (Data Science) student with strong foundations in Python, SQL, and web development. Experienced in building machine learning models, backend logic, and responsive web applications. Skilled in data analysis, predictive modeling, and developing scalable solutions with hands-on experience in real-world projects. Familiar with data preprocessing, exploratory data analysis (EDA), model evaluation, and dashboard development using Power BI and Tableau.

Technical Skills

Programming Languages: Python, Java, C, JavaScript

Web Technologies: HTML, CSS, JavaScript

Databases: SQL, MongoDB

Data & Machine Learning: Pandas, NumPy, Scikit-learn, Predictive Modeling

Visualization: Power BI, Tableau, Excel

Tools: Git, GitHub, Google Colab, VS Code, Figma

Internship Experience

Take It Smart (OPC) Pvt Ltd.

Feb 2026 – May 2026

Data Science Intern

- Worked on data preprocessing, cleaning, and visualization for analytical tasks.
- Assisted in developing machine learning models and predictive analysis solutions.
- Created dashboards and reports using Power BI for business insights.
- Analyzed datasets and generated insights using data-driven techniques.

Projects

ML-Based Career Assessment System | Python, ML, SQL, Power BI

Nov 2025

- Developed an AI-driven adaptive assessment system to evaluate user skills and generate recommendations.
- Implemented data preprocessing, feature engineering, and supervised learning models using Scikit-learn.
- Improved model performance through hyperparameter tuning and evaluation metrics.
- Designed interactive dashboards in Power BI to visualize insights and performance analytics.

Customer Churn Prediction System | Python, Machine Learning, EDA

- Built classification models (Logistic Regression, Random Forest) to predict customer churn with high accuracy.
- Performed exploratory data analysis, handled missing values, and applied feature engineering techniques.
- Evaluated models using Accuracy, Precision, Recall, and F1-score to ensure robustness.

Personal Portfolio Website | HTML, CSS, JavaScript, Figma, Vercel

- Designed and developed a fully responsive portfolio website showcasing projects and technical skills.
- Applied modern UI/UX principles to improve accessibility and user experience across devices.
- Integrated GitHub with Vercel for version control and continuous deployment.

Education

Vivekananda College of Engineering and Technology

2022 – 2026

Bachelor of Engineering - CSE (Data Science)

CGPA: 8.8

Dr. A.V. Baliga College of Arts and Science

2022

Senior Secondary - PCMC

86.13%

Nirmala Convent High School

2020

Secondary Education

85.44%

Certifications

- **NPTEL – Cloud Computing:** Studied cloud architecture, virtualization, and service models.
- **Microsoft Certified – Power BI:** Expertise in dashboard creation, data modeling, and DAX fundamentals.
